

Abstract Topics

We invite you to review the abstract topics

Present your work, engage in stimulating discussions, and forge new collaborations with fellow researchers.

Join a vibrant community of scientists working towards a better understanding of autoimmune diseases.

BASIC MECHANISMS

- AUTONOMIC NERVE SYSTEM AND AUTOIMMUNITY AND DYSAUTONOMIA
- COVID-19, POST COVID SYNDROME, VACCINES AND AUTOIMMUNE ADVERSE EFFECTS
- ENVIRONMENT, OBESITY, SMOKING, EXERCISE AND AUTOIMMUNITY
- EXPERIMENTAL AUTOIMMUNE MODELS
- FERRITIN, HYPERFERRITINEMIA AND AUTOIMMUNITY
- GENETICS AND EPIGENETICS IN AUTOIMMUNITY
- IL17, IL23, IL32 AND THEIR ANTIBODIES AUTOIMMUNITY
- INFECTION AND AUTOIMMUNITY: MICROBIOME, INFECTOME AND INTERACTOME
- INNATE AUTOIMMUNITY, TLRs AND AUTOIMMUNITY
- MECHANISM AND ETIOLOGY OF AUTOIMMUNE DISEASES – FROM BENCH TO PATIENTS
- B REGULATORY CELLS (TREG, BREG) – TOLERANCE

CLINICAL PRACTICE - DIAGNOSTICS

- ASIA SYNDROME, BREAST IMPLANTS AND AUTOIMMUNITY
- CANCER AND AUTOIMMUNITY
- COMPLEMENT IN AUTOIMMUNITY
- DIAGNOSTIC MEASUREMENTS IN AUTOIMMUNITY

- GASTROINTESTINAL AUTOIMMUNITY
- HEMATOLOGICAL DISEASE AND AUTOIMMUNITY
- POLYMYOSITIS, MYASTHENIA GRAVIS AND MULTIPLE SCLEROSIS
- PRECISION (PERSONALIZED) MEDICINE IN AUTOIMMUNITY
- BIG DATA, PREDICTION, MONITORING AND PREVENTION
- SMALL FIBER NEUROPATHY (SFN) AND AUTOIMMUNITY
- STANDARDIZATION OF DIAGNOSTICS
- THYROID AUTOIMMUNITY
- TYPE 1 DIABETES MELLITUS

CLINICAL PRACTICE - THERAPY

- CELIAC DISEASE AND AUTOIMMUNITY
- CENTRAL NERVOUS SYSTEM AND AUTOIMMUNITY: EYE, SMELL AND PSYCHIATRY
- CHECK POINT INHIBITORS AND AUTOIMMUNITY
- DIET AND AUTOIMMUNITY
- IMMUNOMODULATION
- IVIG AND NATURAL AUTOANTIBODIES
- GASTRO INTESTINAL, LIVER AND AUTOIMMUNITY
- NOVEL THERAPIES – CHECKPOINT INHIBITORS, BIOSIMILARS, CANNABIS, MUSIC
- PREGNANCY, SEX HORMONES AND AUTOIMMUNITY
- PULMONARY ARTERIAL HYPERTENSION AND SYSTEMIC SCLEROSIS
- RITUXIMAB AND B-CELL DEPLETION THERAPY
- SLE, ANTI PHOSPHOLIPID SYNDROME, SJÖGREN'S DISEASE AND RELATED CONDITIONS
- VASCULITIDES, HORMONES AND AUTOIMMUNITY

We're also excited to receive additional recommendations for topics beyond those currently listed.

This is your opportunity to share your research and insights on autoimmune diseases with your peers. Whether you're working on a novel treatment, developing new diagnostic tools, or investigating the underlying mechanisms of these complex diseases, we want to hear from you.
